

cAP lite Wireless Access Point

Ultra-compact ceiling-mounted 2.4 GHz wireless access point powered entirely over PoE — no local power adapter needed. Designed for discreet and tidy indoor deployments in offices, hotels, and retail environments. Supports MikroTik CAPsMAN for centralized management of large-scale Wi-Fi networks.

Specifications

CPU	QCA9533 @ 650 MHz
RAM	64 MB DDR2
Storage	16 MB Flash
Wi-Fi Standard	802.11b/g/n (2.4 GHz)
Antenna Config	2x2 MIMO
Antenna Gain	1.5 dBi (built-in)
Ethernet Port	1x 10/100 Mbps RJ45
PoE Input	802.3af / 802.3at
Max Power Draw	4 W
Dimensions	62 x 62 x 28 mm
Mounting	Ceiling clip / Wall
RouterOS License	Level 4
Operating Temp	-20°C to +70°C
