

DHI-ISC-ED0001-12000

EAS Detacher

- Adapts to most magnetic unlock EAS tags.
- Elaborately appearance and super magnetic force make this operation convenient.
- Minimalist design and embedded installation make the counter neat and beautiful.
- Strong and durable shell material protects the core magnetic material in all directions.

Introduction

As an excellent EAS unlocking device, EAS Detacher is used to unlock EAS tags. Elaborately appearance and embedded installation make this operation convenient. With super magnetic force, it can unlock most of the tags. In addition, designed for strong magnetic core focusing, the inner layer has strong magnetic force and quick nail suction.

Features

Adaptability

By a magnetic core with a magnetic induction strength greater than 12,000 GS, most EAS magnetic tags can be unlocked.

Security

The rugged shell protects the magnetic material while isolating the magnetic field, preventing interference with electrical equipment or accidental inhalation of foreign matter.

Good Detection Effect

High detection rate and good anti-theft effect.

Scene

The detacher can be fixed on various EAS tags.

Technical Specification

Performance

Magnet Steel O Station Test Point	≥ 11,000 GS
Magnetic Core	≥ 12,000 GS

Appearance	Silver frosted finish
Certifications	Conform with RoHS Directive 2011/65/EU, 2015/863/EU and REACH regulations as defined in EC No 1907/2006 and subsequent amendments.

General

Bare Machine Dimensions	74 mm × 74 mm × 36.5 mm (2.91" × 2.91" × 1.44")
Packaging Dimensions	405 mm × 280 mm × 165 mm (15.94" × 11.02" × 6.50")
Inner Box Dimensions	75 mm × 75 mm × 53 mm (2.95" × 2.95" × 2.09")
Gross Weight	380 g (0.84 lb)
Net Weight	366 g (0.81 lb)
Packaging	50 pcs per carton

Environmental Constraints

Operating Temperature	Indoor, 0 °C to 50 °C (32 °F to 122 °F)
Operating Humidity	20%–60% (RH)

Ordering Information

Type	Model	Description
ISC-ED Series	DHI-ISC-ED0001-12000	Detacher L74 Grey 12000
